This our Annual Directory, is offered to the good people of Winston and Salem. It is not a perfect Directory, because such a production has never been known since Adam claimed a monopoly of the census; but it is equal to all reasonable requirements.

A Directory is a work the most prone of all to errors, from the fact that information is received from all sources, and in many cases given in a manner calculated to mislead, but we believe the present volume will be found entirely free of errors that will in any way detract from the value of the book.

Considerable difficulty has been encountered in our effort to make the work thorough and complete, yet we claim that there are but few errors. Many names are spelled in a half a dozen different ways, and yet retain the same phonetic sense. This fact necessitates careful search, which we trust will be made in all cases of doubt.

Our Book is completed, and to the public we confidently trust it, knowing that they will appreciate its merits and deal kindly with its faults, and extend thanks to all who so kindly aided us in our work.

Very Respectfully,

E. F. TURNER & CO.,

TWO HANDSOME NEW BUILDINGS.

Recently Completed in the Wide-Awake, Progressive Manufacturing City of Winston—Hotel and City Hall.

Two of the handsomest buildings in the "Old North State" have recently been erected and opened here. They are models in every respect, and show the kind of buildings which undoubtedly will hereafter be built by the progressive people of the "Twin City."

HOTEL PHENIX.

The above is the handsome and spacious Hotel Phoenix, and is fast becoming one of the most popular hotels in the State, under the management of Mr. G. W. Kittelle. The entire building is heated by steam and lighted by electricity. Its rooms are large and elegantly furnished. Table and service unexcelled. A "resting place for the weary traveller" and a credit to the city and its managers.

WINSTON'S NEW CITY HALL.

Winston's New City Hall—A model municipal building of striking architecture and an ornament to the city. It faces one hundred feet on Main Street, and runs the length of the block on West Fourth Street. Erected at a cost of \$75,000 and is modern in every particular.

The court rooms are spacious and elegant, and there are excellently fitted up rooms for city commissioners and various city officers. Quarters strictly up to date are provided for the fire department. In the rear there is an annex, the lower floor of which is large and well arranged market house and the second story is the armory of the Forsyth Riflemen, of the State Guard. There is no other armory in the State that will at all compare with this one.

KESTER BROTHERS,

—PROPRIETORS OF—

THE WINSTON IRON WORKS

Office, 432 and 434 Main Street, Winston, N. C.

Manufacturers and Repairers of Wood Planers and Matchers, Saw Mills, Rip and Cut Off Saws, Tobacco Shapes, Tobacco Box Groovers, Lumber Trucks for saw mills. Dealers in and Repairers of Engines, Boilers, &c. Shafting, Pulleys, Hangers of all sizes, and Turbine Water Wheels. OUR TURBINE WATER WHEELS are fully guaranteed. They give more power with less water than any other wheel built in the United States. The gates are perfectly tight and easily worked. OUR WOOD PLANER and MATCHER is a first-class machine in every respect. Iron bodied machine throughout; it is a bed raising machine; bed 9 feet long. top and bottom rolls are power driven; cylinders are made of the best forged steel; material and workmanship the best that can be procured. OUR CIRCULAR SAW MILL is the simplest, best and most accurate machine ever built. We guarantee it not to spring a particle. The set works are perfectly accurate and easily operated. It, like all other machinery manufactured by us, is fully guaranteed in every respect and is made of the best material and by experienced workmen.

Kester's Combination Box Clamp and Press.

This new and improved machine for Prizing Tobacco in the Box, and for Lining out Tobacco Boxes and Heading for all work from six to twelve inches inclusive. This machine holds the box firm while the pressure is being put on the tobacco in the box. By turning the crank in the ring to the left, by means of the lever as shown in the cut, opens the clamp and the billets simultaneously, and by turning the lever to the right, tightens the billets to suit the size of the box; then by turning the hand wheel at the top, the screw is run down on the tobacco, which can be pressed as hard as desired; the liners can then be nailed in, after which run the screw up, the head cap and arms, which work on a carriage by means of rollers, may be run back out of the way; finish lining, then turn the lever to the left, press the treadle, which raises the box, so that it may be taken readily from the clamp. Takes about space of ordinary box screw, weight, 1075 pounds.
